Australian Solar Timbers
Natural Excellence

Heritage Style

Panache timber flooring combines the pure natural ingredients of Australian hardwoods with handcrafted authenticity and advanced manufacturing technology to offer solid wood flooring in a range of unique timber colour tones at a surprisingly economical value.

Panache brings authentic heritage style to modern interiors with each of the hand selected boards crafted to moderately feature the organic essence of Australian hardwoods while providing contemporary styling with Australian Solar Timbers precise machining and finishing of the floor designs.

AST Panache is highly durable, solid wood flooring which has been developed to add individual diversity to home interiors as well as being ideally suited to commercial spaces such as offices, shops and cafes.

The precise tongue and groove machining and flawless end matching means ease of laying for the most exacting of applications. Panache comes in easy to handle 1.2m length packs, in 80x19 and 130x19 mm wide boards.

Colours by Nature

AST Panache pure wood floors bring a relaxed natural mood to interiors with a distinctive and original collection of genuine Australian hardwoods capturing the diverse contrasts of our vast landscape.

Panache combines complimentary timbers to produce unique selections that range in style from the warm embracing coastline colours of Bronze and Pumice to the bold earthy inland tones of Tropic, Pecan and Russet.

Panache flooring incorporates excellent structural strength and durability that will add stunning form and function to modern spaces.

PANACHE

Ecological Spirit

Respect for the natural environment through sustainable forest management is at the core of AST values, vision and business philosophy. Wood is a renewable resource that needs to be handled with care and consideration to ensure continued supply and enjoyment for future generations.

Panache timber floors are a result of another AST environmental initiative which utilises skilled craftsmanship and state of the art machine technology to recycle timber from within our milling process to create heritage style flooring of excellent durability, quality and value.

A solid hardwood floor is a pure natural product and regarded as one of the most ecological flooring products available. It is carbon neutral, free of allergens and provides the longest service life.

Australian hardwood is unique in the world. Variations in character markings, colour and grain should be expected and appreciated for their natural beauty. Photos in this catalogue are intended as a guide only.
